

METERING TECHNICIAN

An exciting and challenging opportunity is available for a results-oriented individual to join a customer-focused energy distribution corporation serving over 22,000 customers in fifteen communities within Grey, Bruce, Huron, and Wellington counties. Westario Power's headquarters are located in the Town of Walkerton.

Reporting to the Line Superintendant, the Metering Technician will be responsible for ensuring proper meter installation, testing, record-keeping, and troubleshooting within a high-quality electrical distribution and sub-transmission system to meet customer and company needs.

Qualifications & Experience:

- Experience in the installation and maintenance of single-phase and polyphase meters and metering systems.
- Completion of an Ontario college program in electrical technology (power or control) leading to registration as a certified Journeyperson & Metering Technician.
- Minimum of five (5) years of related experience in an electrical utility.
- Familiarity with Measurement Canada and IESO requirements.
- Knowledge and ability to diagnose all electronic metering hardware.
- Ability to set up and support data collection systems.
- Experience with the maintenance, installation, operation, and troubleshooting of metering systems.
- Ability to set up and conduct tests of complete units and components under operational conditions.
- Capability to investigate design proposals for improving equipment performance or for development, standardization, and quality control.
- Ability to verify procedures, objectives, and test equipment for technical problems, and determine possible solutions.
- Strong analytical skills to assess test results, modify or adjust equipment to meet specifications.
- Proficiency in recording test procedures and results, preparing numerical and graphical data, and making recommendations for product or test method improvements.
- Knowledge of the Electrical Safety Authority Regulation 22/04, E&USA Rule Book, Occupational Health & Safety Act, Utility Work Protection Code, WHMIS, CPR, First Aid, and other applicable legislation.
- Other duties as assigned.
-

Skills & Competencies:

- Strong communication skills (oral, electronic, and written).
- Excellent analytical and troubleshooting abilities.
- Proficiency in Microsoft programs; experience with SAP is an asset.
- A valid Ontario driver's license.

Interested and qualified candidates should forward a detailed resume, including work experience, education, and references, to hr@westario.com.
